

Program Executive Office

MISSION STATEMENT

The mission of the Program Executive Office, Defense Healthcare Management Systems (PEO DHMS) is to transform the delivery of healthcare and advance data sharing through a modernized electronic health record for service members, veterans, and their families.

PEO DHMS is responsible for the Department of Defense electronic health record modernization including the operational, data exchange, and interoperability initiatives. This work is accomplished through three program management offices featured inside.

Transforming Healthcare Through
Acquisition Excellence

PROGRAM EXECUTIVE OFFICE
DEFENSE HEALTHCARE MANAGEMENT SYSTEMS

1700 N. Moore Street, Suite 2300
Arlington, VA 22209

DoD/VA INTERAGENCY PROGRAM OFFICE

The Department of Defense (DoD)/ Veterans Affairs (VA) Interagency Program Office jointly oversees and monitors the efforts of DoD and VA to implement national health data standards to enable data sharing across military, veteran, and private healthcare partners.

Encourages and enables collaboration across DoD and VA by serving as a central resource for modernization and interoperability

Ensures seamless integration of health data while closely collaborating with public and private partners to support national data sharing efforts

DoD HEALTHCARE MANAGEMENT SYSTEM MODERNIZATION

The DoD Healthcare Management System Modernization Program Management Office oversees the deployment of MHS GENESIS.

Continually refines a deployment and sustainment plan to optimize the delivery of MHS GENESIS

Manages engineering, testing, logistics, business operations, change management, and communications to ensure a successful deployment of MHS GENESIS

JOINT OPERATIONAL MEDICINE INFORMATION SYSTEMS

The Joint Operational Medicine Information Systems Program Management Office is responsible for meeting existing and emerging operational medicine requirements in theater and fully leveraging MHS GENESIS configuration as the core application for accessing, capturing, and documenting medical and dental care in the operational environment.

Acquire new capabilities to meet operational medicine requirements

Sustain the Theater Medical Information Program-Joint, also known as TMIP-J
