

AccessMedicine

McGraw-Hill's AccessMedicine has changed its name to AccessMedicine. AccessMedicine can be found on the DMVL portal at www.health.mil/dmvl. On the right hand side of the page under "Contact Us" click on "Enter the Virtual Library". Click "OK" and login with your DMVL ID/Password. When the DMVL portal opens, choose the tab "Databases" and then choose "A" to link to AccessMedicine.

AccessMedicine provides access to more than 65 medical titles including the following:

- Basic & Clinical Pharmacology
- Current Medical Diagnosis & Treatment
- Current Practice Guidelines in Primary Care
- Goodman's & Gilman's The Pharmacological Basis of Therapeutics
- Harrison's Online
- Hurst's the Heart
- Principles of Critical Care
- Schwartz's Principles of Surgery
- Smith's Patient-Centered Interviewing
- Tintinalli's Emergency Medicine
- Understanding Telehealth
- Williams Obstetrics

There are thousands of photos and illustrations, more than 200 videos of procedures and Grand Rounds lectures, practice guidelines on over 60 common conditions, patient handouts, an integrated drug database, diagnostic tools, and more. All this content is accessible via one search platform.

Key features:

SEARCH across different content types (such as textbooks, images, drugs) with a single search query

DIAGNOSE AND TREAT patients using the differential diagnostic tool and Dx tests from Nicoll's Pocket Guide to Diagnostic Tests

INSTANT ACCESS to practice guidelines, drug information, and more
